User can define up to 21 income groups. This table is repeated for each income group.

Date range is from 1999 to 2029

Table is repeated in US\$ and Local currency using latest year end exchange rate.
Also repeated for each of urban and rural households where available.

Data in this area is per household in the defined income range. It can be converted to total value of segment by multiplying values by number of households in segment (first data row)
